15 SEP

To

S. ABDUL WAJID, ESQ., B.A.,
Secretary to the Government of Mysore,
Development Department,
Bangalore.

SIR,

I have the honour to state that the work at the Government Silk Farm, Chennapatna, has developed considerably in recent years and the Farm requires a large supply of mulberry leaves. Last year the Farm prepared about 5 lakhs of cross breed layings and action is being taken ~~for~~ to further increase the production of cross breed layings this year. The Farm will have to rear a large number of foreign race of silk worms for the purpose. Experimental work has also grown as the Farm has now been equipped with a Laboratory. The supply of mulberry leaves from the existing gardens is found inadequate to meet the requirements of the Farm, which is growing owing to the steadydevelopment of work and it is found necessary to extend the garden. I enclose for your information a copy of the Assistant Superintendent's report to the Superintendent of Sericulture on the subject and a copy of the Superintendent's recommendation thereon, which furnish full details about the need for extending the garden. I have also gone into the question and I consider that the proposed extension is urgently necessary.

A land-2 acres 10 guntas in extent-bearing S.No.12 (Wet) of Honniganahalli village has been selected for being added on to the existing garden. This land is adjacent to the present garden. The land belongs to Mr. F.M.Abdul Khuddus and he has agreed to give it on lease for a period of 10 years at an annual rental of Rs 77-12-0 per annum which works out to about Rs 35/- per acre per year. Six acres out of the existing garden have been taken on lease from him for a period of 10 years at the same rental per acre. I request that the sanction of Government may be kindly obtained to take the additional land now proposed, on lease for a period of ten years at the rental proposed. A sum of about Rs 500/- will be required for planting the entire area of 2 acres and 10 guntas with mulberry. This expenditure will be met from the provision under 'Extension and Improvement of Gardens' in the current year's Budget of the Sericultural Department. This expenditure may also be sanctioned.

Seri 11-29-23

I have the honour to be,
Sir,
Your most obedient servant,

DIRECTOR.

mac

Subd with a draft G.O. for orders.
19.22.9.33.

Was not the present garden taken on a lease from him about Rupees? If so what was the BV3) Rent he was then paying? If there is any difference this may be taken advantage of.

1-12

H. S. Govinda Rao, Esq., B.A.,
Superintendent of Sericulture in Mysore,
Old Exhibition Buildings, M y s o r e.

Subject:-"Additional lands for Mulberry Garden at Channapatna".

The rearings in this Farm Experimental research and Industrial ones require a large supply of leaf. The total area of the garden is about 9 acres. Of this, about 2½ acres are converted into a "Tope" for two reasons viz for demonstrations and also for want of irrigation facilities. This reduces the planted area to 6½ acres. Further, there is nursery in about ½ an acre and pathways and irrigation channels take away another ½ an acre. The net area is reduced to 5½ acres. For purposes of replanting, one acre is uprooted and is ready for planting.

Having regard to the maintenance of the Foreign races of worms for preparing cross-breeds, and for production of Foreign race seed-cocoons and for the important experiments on hand such as Refrigeration and other Experiments, it is absolutely necessary that we should have atleast an additional garden of 2½ acres with irrigation facilities.

For establishing 2½ acres of garden from the initial stages up to bringing it to condition would cost about - Rs.500/- including cost of putting an open well for pumping water. It is possible to get lands at Rs.40/- to Rs.45/-

P.T.O.

per acre per annum on rental for a period of ten years. The annual rental would thus be about Rs.100/- for 2½ acres.

I request you to be good enough to obtain sanction for the above proposal and expenditure. I shall use the Petter's Engine for pumping water. No additional set is necessary at present.

I shall negotiate for lands after hearing from you in this connection.

I have the honor to be,
Sir,
Your most obedient servant,

K. Shamsha

Assistant Superintendent of Sericulture,
Channapatna.

OFFICE OF THE SUPERINTENDENT OF SERICULTURE IN MYSORE
EXHIBITION BUILDINGS,

Mysore, 30th May *193* 3

FROM

H. S. GOVINDA RAO, ESQ., B.A.,
Superintendent of Sericulture in Mysore.
MYSORE.

To

A.V. Ramanathan, Esq., B.A.,
Director of Industries and Commerce in Mysore,
Bangalore.

SUBJECT AND REFERENCE— Extension of Mulberry Garden attached to Channapatna Farm.

SIR,

I have the honour to state that the total area of the garden attached to the Channapatna Farm is about 9 acres, of which 2½ acres have been planted with tops and only about 5½ acres are available for industrial rearings along with the area set apart for manurial experiments. As the plants in the garden are old, they have to be replanted acre by acre.

A large number of foreign races have to be reared and experiments have to be conducted in the Channapatna Farm. It is also necessary to have a large nursery for raising seedlings for use in Government Farms and for distribution to the raiyats so that the advantages of raising mulberry gardens with seedlings in preference to cuttings are fully demonstrated to the raiyats.

To have a steady supply of mulberry leaves for the rearings in the Experimental as well as Industrial rearing sections, it is necessary to extend the mulberry garden attached to the Channapatna Silk Farm. I enclose herewith copy of letter No. 2460 of 2-12-1932 and 5139 of 24-5-1933 received from the Assistant Superintendent of Sericulture, Government Silk Farm, Channapatna, for information.

The land, i.e., survey number 12 of Honniganahalli (Beicharak Village) is about 2 acres 7 guntas in extent and was inspected by me on 27-5-1933. The soil is suitable for mulberry. The land is adjacent to the present mulberry garden attached to the Channapatna

Silk

6

Silk Farm and belongs to Mr. F.M. Abdul Quddus of Channapatna. We have to take the land on lease for about 20 years on a rental which may not exceed Rs 75/- per annum for the whole area. The initial cost of planting the area and of creating irrigation facilities may not go beyond Rs 500/-.

I request that I may be permitted to negotiate with Mr. Abdul Quddus re the lease amount so that Government sanction may be obtained for taking the land on lease and for extending the mulberry garden attached to the Channapatna Farm.

I have the honour to be,
Sir,
Your most obedient servant,

Superintendent.
